

## Appointment Scheduling for the Seidman Cancer Center

Disease Coordinators exist within several subspecialty areas at the Seidman Cancer Center. Their role is to assist in scheduling new patients, making sure they are seeing the proper physician within the correct timeframe, and ensuring that appropriate records are obtained prior to appointments. As of February 8<sup>th</sup>, 2011 Disease Coordinators serve the following areas: Breast, Hematologic and Specialized Benign Hematology, GI, GU, Gyn Onc, Head & Neck, Melanoma and Thoracic Malignancies.

The appointment locations we offer through the coordinators and Seidman Cancer Center Central Scheduling (216-844-3951, Option 2) are the Seidman Hospital sites at: Case Medical Center (located on the 6<sup>th</sup> floor of Bolwell), Chagrin Highlands, Sharon Center and Westlake. Scheduling for the Seidman Cancer Center at UH Geauga and Landerbrook are done directly through their respective offices.

The Seidman Community sites at Firelands Regional Medical Center, Lake Hospital, Southwest General Hospital and Trumbull Memorial have separate scheduling procedures and are not served by the Disease Coordinators. Furthermore, we generally do not have interface with their electronic medical records systems. Please contact the respective entities to schedule patients wanting those locations.

We ask that you contact the appropriate Disease Coordinator as soon as possible for any new pt appointments that need to be scheduled within Seidman. If a pt you are discharging does not fall within one of the coordinator disciplines, or you are unsure, please contact the Seidman Central Scheduling office at 216-844-3951, option 2, and they can assist you.

If you need follow up appointments for any existing Seidman patients, please call the Central Scheduling office at: 216-844-3951, option 2.

<b>Breast Malignancy Coordinator</b>	Leda Dumadag	Office: 4-8988	Pager: 32611
